*Panel: For each day, 30 minutes of Sharing Practical Experiences, and 60 minutes of Strategic Planning Workshop in three groups (Men, Women and Youth)

Vision: Every year we launch Mission-Leadership Conference for Church members from different denominations.

Objective: Help church leaders (men and women) and other church members to be aware of the current challenges, and how to address these challenges with reference to Bible principles, to the global expertise, and to their own context patterns.

Nature of meeting: Learning seminar for church leaders; Open-air campaign (evangelism/edification) for all God's people.

2009 Theme: The world is undergoes all kinds of crisis: finances, family, ministry, business, education, health, etc. The crisis is really felt in DR Congo where we serve God. Living in such a context has been a challenge for any church leader. But, how should leaders overcome their own crisis and help God's people overcome theirs? In such time of crisis, we must do something!

Outcomes: The Conference should help participants return home with confidence that God has showed them the restoration paths (for their finances, family, ministry, business, education, health, etc) that they would explore and follow in their daily life.

1. In this time of crisis, each participant to the **Learning Seminar** expects practical insights on how to communicate the restoration message, how to promote holistic ministries, how to plant and manage missional church, how to raise and develop new leaders.
2. In this time of crisis, each participant to the **Open-Air Campaign** expects practical insights on why and how to be aware of his or her own situation, how to pray, how to work and how to share.
